European Patient Innovation Summit Agenda 2020

Patients in a digital world:

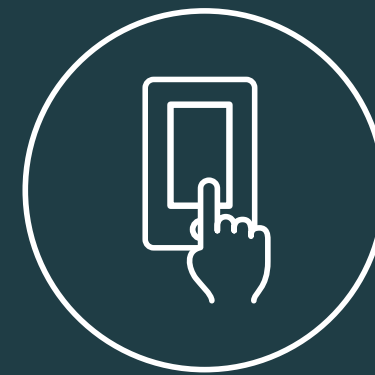

Making the most of new opportunities for engagement arising from COVID-19

The 2020 summit's objectives are:

1

Share learnings from patients' experiences of engaging digitally during the COVID-19 pandemic

2

Agree on the most important benefits and challenges for patients associated with digital engagement

3

Make recommendations on how patients can continue to benefit from digital engagement and ways to address the key challenges faced with this form of engagement

Please find the preliminary agenda for the fully virtual 2020 summit series outlined below
